

Summit Physio & Performance

Out-of-Network PT Insurance Billing Information

Summit Physio & Performance is an Out-of-Network Physical Therapy Provider. Contact your provider to see if you have any Out-of-Network Physical Therapy benefits with your insurance plan.

Things to note:

- Payment from your insurance company should be paid directly to you, not your physical therapy provider.
- Your insurance company will need the Superbill receipt from each physical therapy appointment. You will find this in your patient portal located on either the PT Everywhere website or app. You will receive a Superbill receipt after each physical therapy session which is specific to each individual physical therapy appointment. The Superbill, has all your individual ICD-10 codes and CPT treatment codes, your therapist's license, and NPI number. ICD-10 codes and CPT codes are utilized to classify your medical condition and the specific type of services you receive during the visit.
- When contacting your insurance company please use the information below, along with submitting your Superbill from your physical therapy treatment. Summit Physio & Performance also accepts HSA and FSA if these benefits are part of your insurance plan.
